

Return of the Dark Sorcerer 2.0 OST B Tracklist

Background

The creation of OST B started while version 2.0 being developed, around 2018. It includes 184 song hacks, a majority being new, some being remixes of the main OST songs and some being exclusive versions made for RotDS. OST B is an optional patch you'll be able to patch over the base RotDS 2.0 ROM. emberling started music hacking in 2018 and proliferated in the field to the point of being in the top FF6 music hackers and a significant portion of OST B is authored by her. In the process more songs were donated by tsushiy from his hack FF6 T-Edition.
