

FF6 T-Edition English Translation

This is a translation project of FF6-T Edition by Kain Stryder, dn and Lazarus_DS from NG+. Some menus in-game are translated as well as 100% of the HTML files. The goal is to have a 100% translated game eventually. The archive already contains the partially translated ROM. Lazarus_DS is a professional translator that helped on the localization of commercial games so you can expect this translation to be faithful to the original hack.
