

# FF3us Related Links

This is a link list of pages that have as a primary purpose the SNES version of FF6. For other links, you can check the links concerning [FF6 Advance and GBA](#).

## Forums

### [FF6 Hacking](#)

Host of this wiki!

### [romhacking.net](#)

General ROM hacking community site that aims to bring several different areas of the ROM hacking community together. It has a large database of patches, utilities, documents and fonts.

### [Zophar's Domain](#)

Once was one of the central place of ROM hacking but the activity there has declined gradually.

### [Insane Difficulty](#)

Forum dedicated to difficulty hack on many systems. RotDS and Brave New world have a subforum there as well as other mods.

### [Slick Forums \(archive.org\)](#)

Now defunct. Lots of knowledgeable FF4, FF5 and FF6 folks used to hang out there!

### [Mnrogar's Den Forum \(archive.org\)](#)

Now defunct. A good source of info about FF3us and the place where everything started.

## Patch Hosting

### [My Barren Webpage](#)

Webpage of assassin, veteran hacker, that hosts many patches that are mostly bugfixes. You can also find on this site a commented C2 disassembly and other documents.

### [Imzogelmo's Not-Even-Penultimate ROM Resource](#)

Here you can find patches and essential documents for event editing, such as the event dump and event commands list.

### [Slick Productions \(archive.org\)](#)

Now defunct. Good resource for disassembly docs (bank C0, C1 and C3 most importantly). They host a variety of patches, including their Pandora's Box hack.

### [ZED's Unoriginal White Sheet](#)

Host of various hacking documents and original patches. There are also FF3us documents such as the Sketch bug guide.

### [Leet Sketcher's Patches for Final Fantasy III/VI](#)

Website hosting various recent bugfix patches.

### [SilentEnigma's Cool Things](#)

Site of a hacker that came out of the grave. Hosts a few patches.

## Utilities and More

### [RPG Legion](#)

Patches, utilities and documents like the enemy command script guide and commented C2 disassembly.

### [Drakkhen's Patch Pages](#)

Host of some patches, utilities and a partial FFVI Advance ROM map.

### [Geiger's Crypt](#)

Some patches, utilities and the incredible snes9x debugger.

### [Lord J's website](#)

Tables, data formats and some utilities.

### [JCE3000GT](#)

Hacks and utilities.

## Graphics

### [FF6 on Sriters Resource](#)

Basically almost all the game graphics are there.

### [Video Games Sprites](#)

PC, NPC, enemies and objects.

### [FF6 on vgmaps.com](#)

Maps!

## Translations

### [Kwhazit Oddities](#)

FF6j English translation page.

### [Lina Darkstar's Translation \(Icy Forums\)](#)

Lina Darkstar's Translation forum thread. You can also download the [Word document](#).

### [RPG One FF6 Translation page \(archive.org\)](#)

Mainly for archival purpose of the most famous FF6j translation.

### [Sky Render Translation \(archive.org\)](#)

He has work on the RPG One translation. You can also check his own FF6 project [End of Fantasy](#).

### [Terminus Traduction FF6 translation](#)

Most famous French translation.

[Encyclopédie de FF6](#)

French and English FF6 translation site. Last updated in 2005 and partially broken.

## Other

[FF6 on DataCrystal](#)

RHDN wiki entry on FF6.

[Mnrogar's Den \(archive.org\)](#)

Some documents and nice savestates stack.

[FF6 on FantasyAnime](#)

Savestates and other stuff...

[Return of the Dark Sorcerer: A FFVI mod](#)

Home of RotDS.

[FF6: The Eternal Crystals](#)

Home page of FF6:EC.

[64C48C92AA64C4B87E36C5591F071DC5 \(Japanese\)](#)

Shall's Blog. He is the author of the FF6j hack FF6-G, which can be found [here](#).

[FF6 T-Edition Homepage \(Japanese\)](#)

Home of the famous FF6j hack. Check also the english [poematox page](#)!

[Inu's Sandbox \(Japanese\)](#)

Data analyzer for FF4A, FF5A, FF6A.

[ffbin@wiki \(Japanese\)](#)

Japanese FF hacking page.
