

Final Fantasy 6 Pixel Remaster

Welcome to the FF6PR modding wiki! While we may not be experts in Unity games modding, our knowledge in previous FF6 version might be a good starting point to understand the data and code of this new version of the game. For mods check out the [Nexus Mods page](#) of the game. If you want to join the conversation, show your work or ask questions, here's an invite to the [VGRM Discord server](#).
