Offsets

Address	Description
\$C17D84 - \$C17D90	setup sword tech gauge speed
\$C203F4 - \$C203FB	link for setup of wait time
\$C3F600 - \$C3F636	setup time for command

Description

The patch speeds up the sword tech gauge and makes possible to select any sword tech level without significant delay. After the sword tech level is selected, the time of the ready stance of the character is updated accordingly. The character will quietly charge up the sword tech level and the player is free to give commands to the party.

This version preserves the retort functionality.
