

FF6LE Rogue

	Author	Lord J, giangurgolo & d3tl4
	Category	game data level palette
	Game	FF3us 1.0 FF3us 1.1
	Operating System	
	Version	20130525
	Release Date	2013/05/25
	Download	FF6LE Rogue

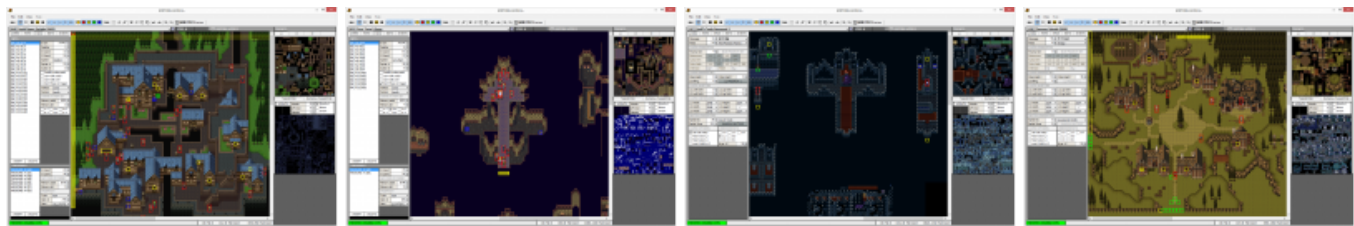

Description

This is a version of [FF6LE](#) that work correctly with FF3usME, i.e. the world maps tilemaps pointers are organized the same way meaning the map will not look glitchy in FF6LE. Also, this version require an expanded ROM since it allow world maps tilemaps expansions. The 20110108 build had a serious bug with Serpent Trench map compression, leading to a corrupted map.
