

Novalia Spirit Patch Archive

Note

This page contains all the SNES, SFC and GBA FF6 patches from Novalia Spirit. His [website](#) is down since 2014 and the only available repository for the patches was a dropbox link, so we took the freedom of creating this page. In the eventuality Novalia Spirit would create a new website, this page will be taken down as well as in the eventuality Novalia Spirit would ask us to do so. Eventually each patch will have its own wiki page.
