There is a lot less work and documentation that has been done on the GBA versions. However, some people have contributed to make this wiki section a decent source of information. In no particular order:

Drakkhen

Early work on the (U) version ROM map.

Everything

Work on the (U) version ROM map and specific data format.

Novalia Spirit

Provided info with the help of his GBA patches.

madsur

Work on the (U) and (E) ROM maps, *some* disassembly work.

LeetSketcher

Provided info with the help of his GBA patches.
